RE: Dr. Joseph Claude Fesperman, Stanley, North Carolina - At an appearance before the Board of Medical Examiners on October 10th, 1970, Dr. Fesperman admitted that he had been taking narcotic drugs for about a year; that he had been a patient at Duke Hospital twice and Dorothea Dix Hospital; that he has arthritis. A letter from Dr. Charles L. Stuckey, Councilor for that District, investigated this matter at the request of the Board.
