RE: Dr. Alton Lane Bullard - On January 6th, 1961, charges were preferred against Dr. Bullard, his license was revoked and judgment suspended for a period of three years, provided he obtain employment in a state or Federal institution, remain of good behavior and not violate any state or Federal laws; obtain psychiatric therapy for such a period as may be advised to by a psychiatrist; that he personally report to the Board of Medical Examiners or one of its members every six months.

The Board of Medical Examiners received information at its June, 1962 meeting that Dr. Bullard had been known to consume alcohol and had been treated in the Department of Psychiatry at Memorial Hospital and Pinebluff Sanatorium; that he had been under the care of Dr. W. E. Lee, Mental Health Clinic, Wilson. The Board instructed that Dr. Bullard be seen by Dr. Lee once or twice a week and that reports be obtained for the July, 1962 meeting.

The secretary presented reports from Dr. W. E. Lee, Dr. Malcolm D. Kemp, Pinebluff Sanatorium, and Dr. Donald E. Widmann, Memorial Hospital, which reported that he admitted trouble with alcoholism, some of the opinions were that he was paranoid in his thinking, and one that he probably would do well in a supervised environment, such as the institution in which he is now working.

Dr. Alton Lane Bullard continued

Dr. Bullard appeared at the request of the Board (interview on file) and stated that he was getting on very well in his work; that he had had no alcohol since his discharge from Pinebluff, which was on May 25th, 1962. He denied the use of any narcotics or barbiturates.

Dr. Parrott<sup>appeared</sup>/at this time at the request of the Board. He stated that he had been on active duty for two weeks with the National Guard; that he had not worked since being seen by the Board in June; that he felt that he was able to return to work. RE: Dr. T. H. Brantley appeared and stated that he wanted some action on getting his narcotic tax stamp reinstated. He said he did an office practice in urology and general practice; that he had staff privileges at Cabarrus Hospital; that he had not had surgical privileges for about one year; that he did not know why he lost his privileges. He also said that he did not want to go there and would not apply for reinstatement of his surgical privileges. He stated that Dr. Barnes had a strong will power; that he is making a desperate effort and he thinks a successful one.
