RE: Dr. S. J. Gray, colored, Wilmington, North Carolina - At the May, 1963 meeting of the Board the attorney, John H. Anderson, Jr. discussed with the Board a matter referred to him which he outlined with regard to colored patients who had been in accidents who had insurance, being admitted to James Walker Memorial Hospital and being discharged with no injuries; that the patients would then go to Dr. Gray, he would admit them to a colored hospital for several weeks and give a diagnosis of traumatic weeping eyes, build up the cases and send a bill for a large amount; that there was a large volume of such cases; that he appeared to have a pattern of reporting injuries and collecting large amounts of insurance. The Board at that meeting directed that Dr. Gray be requested to appear at this time.

Dr. Gray continued

Dr. Gray was interviewed. He stated that due to some court experiences he had made a form, on his letter-head, taken from insurance company forms, which gave a fuller report. He presented a copy of this form, together with a summary of his position in this regard, which are on file. A complete copy of the interview is also on file.

Dr. Gray said that in many instances patients who had been in accidents could not be admitted to James Walker Memorial Hospital due to lack of facilities and were sent home; that they later came to him and needed hospital treatment. He denied that he had ever admitted a patient to the hospital, who in his opinion did not need hospital treatment. He stated that in his 23 years of practice he had never presented a bill for his medical service unless he was asked for it; that he often was not paid for his medical services; that he had attempted to practice ethical medicine.

The Board advised Dr. Gray that when criticism was brought to it that it was necessary to make an investigation. He was urged to be prudent in all matters and practice ethical, honest medicine. He was also advised that the Board would keep this matter under surveillance and if necessary, further investigation would be made.

This interview was received as information.

A. I am a permanent resident of the United States, but I am not a citizen.

Q. Have you made application?

A. No sir

Q. Do you contemplate making application?

A. I am eligible, but one has to be a domicile for six months. Last year on account of family circumstances I had to go home on two occasions. At the moment I could send it in. However, I am about to go to Europe again to see my parents, who are aged.

Q. Would it be possible to turn it in and then go to Europe?

A. I think I can.

Q. In order that we can clarify this situation, are you in a position to institute these papers?

A. Yes, I have them, I can send them in.

Dr. Templeton: Are you practicing medicine?

A. I am working at Memorial Hospital.

Dr. Edmondson: Primarily it is our feeling that it puts the Board in somewhat a precarious situation with other individuals in your same status and that is why we want to encourage you to complete your papers and stop continuation of extension of getting your naturalization papers. You are contemplating doing this pretty soon?

Q. How long does it take if you send in?

A. I guess it depends on how big their demand.

Q. In order to clarify our records, when you send your papers in and have your complete naturalization, would you notify our office?

A. I will.

RE' Dr. James Valentine Thomas (See previous Minutes) - Following charges due to narcotic addiction the Board of Medical Examiners on October 12th, 1962, Dr. Thomas' license to practice medicine in the State of North Carolina was revoked and execution of judgment was suspended on condition that so long as he continued to be employed at Broughton Hospital under supervision and that upon termination of such employment, judgment would become effective and license to practice medicine be revoked.

Dr. Thomas appeared at this time and stated that he left Broughton Hospital and had been a patient at John Umstead Hospital from December 12th, 1962 to June 22nd, 1963; that he had been at Appalachain Hall for the past two weeks. He said his physician at Appalachain thought he might be able to go to work in a hospital.

Dr. Thomas stated that he and his wife had separated and he was with his mother in Florence, South Carolina; that he wanted to know the status of his North Carolina license as he would like to attempt to work in a government or state hospital in South Carolina and wanted to consider applying for license by endorsement there. (See complete interview in file)

Dr. James L. Cathell, Superintendent at John Umstead Hospital, reported that Dr. Thomas left the hospital against their advice.

VERDICT: Dr. James E. Davis moved that Dr. James Valentine Thomas be informed that this Board feels it can not take any action at this time; that it would require psychiatric evaluation by his psychiatrists at John Umstead Hospital, countersigned by Dr. James L. Cathell, before his petition for reinstatement could be considered. This motion was duly seconded by Dr. Joseph J. Combs and passed unanimously.

Dr. Thomas was advised the verdict of the Board.

 Dr. Mario M. Stone

The Board unanimously resolved that the grades, with the above exceptions, be certified.

The above physicians, with the exception of Dr. Livia Kadar Robicsek, will be required to repeat Part II of the written examination in order to obtain license to practice medicine in this state. Dr. Livia Kadar Robicsek will be required to repeat the complete examination in order to obtain license to practice medicine in this state.

RE: Dr. Clinton C. Battle - The secretary presented report of investigation by the State Bureau of Investigation, which was made at the request of the Board, which is dated July 11th, 1963. This report stated that inspection of Dr. Battle's order forms revealed that he had not purchased any narcotic drugs since July 13th, 1962; that Dr. Battle said since meeting with the Board in October, 1962, he had ceased using narcotic drugs on patients unless hospitalized and the only narcotics he had ordered were from hospital stock and administered by the nurse on his orders; the report also stated that Dr. Battle was very cordial and offered to submit to the nalline test, which he avoided on August 5th, 1963.

VERDICT: Dr. W. Boyd Owen moved that the report of the State Bureau of Investigation be accepted as information; that Dr. Clinton C. Battle be kept under surveillance and that an investigation by the State Bureau of Investigation be requested in 12 months from this time. This motion was duly seconded by Dr. H. Lee Large, Jr. and passed unanimously.

RE: Dr. James B. Wheless, Louisburg, North Carolina - The secretary reported he had received report of the State Bureau of Investigation dated July 18th, 1963; that Dr. Wheless admitted to the investigating agent that he had been administering demerol to himself since January, 1963; that he had not kept a record of dispensation of his narcotics since June 24th, 1962; that examination revealed since May 27th, 1963, he had received and dispensed 1,742 cc of Demerol.

The secretary reported also that Dr. Wheless had been notified by letter to appear at this meeting for an interview with the Board. That Dr. Wheless had requested an appointment, had come in and voluntarily surrendered his narcotic tax stamp, order book and narcotics he had on hand. He said he had taken most of the demerol himself. Dr. Wheless said he had made arrangements to be admitted to Dorothea Dix Hospital July 25th, 1963 (this was confirmed) and he asked to be excused from this meeting.

VERDICT: Dr. H. Lee Large, Jr. moved that the secretary obtain a report from the superintendent of Dorothea Dix Hospital upon Dr. James B. Wheless' discharge and request Dr. Wheless to appear before the Board of Medical Examiners at the October, 1963 meeting. This motion was duly seconded by Dr. W. Boyd Owen and passed unanimously.
