**EXECUTIVE COMMITTEE REPORT**

The Executive Committee of the North Carolina Medical Board was called to order at 10:35 am, Wednesday, March 18, 2009, at the offices of the Board. Members present were: George L. Saunders, MD, Chair; Janelle A. Rhyne, MD; Donald E. Jablonski, DO; Janice E. Huff, MD; and John B. Lewis, Jr. Also present were R. David Henderson (Executive Director), Hari Gupta (Director of Operations), and Peter T. Celentano, CPA (Comptroller).

**Financial Statements**

Monthly Accounting January 2009: Mr. Celentano, CPA, presented the January 2009 compiled financial statements. January is the end of the first three months of fiscal year 2009. Dr. Jablonski made a motion to accept the financial statements as reported. Dr. Rhyne seconded the motion and the motion was approved unanimously.

Mr. Celentano reviewed with the Committee the annual accounting of the Review Panel for 2008.

**Old Business**

There were no items to discuss.

## **New Business**

Proposed change to the Controlled Substances Reporting System: Members of the Executive Committee, including our Legislative Liaison, Thomas Mansfield, discussed concerns raised by Dr. Diane Alligood in a letter dated February 23, 2009.

Dr. Alligood is frustrated with the CSRS Act which seems to prevent her from reporting information acquired via the CSRS to colleagues who are also “treating” patients who are abusing and/or diverting narcotics.

After discussion, Dr. Rhyne made a motion to allow Mr. Mansfield to move forward with identifying and meeting with the parties who originally drafted G.S. 90-113.74 and discuss the possibility of amending the confidentiality provision. Dr. Jablonski seconded the motion and the motion passed unanimously.

Termination of Consent Orders: After the January 2009 meeting, the Board, via the Disciplinary Committee, asked the Executive Committee to recommend protocols for handling requests by licensees to terminate Consent Orders. Mr. Henderson discussed with the Committee the two types of orders, remediation and disciplinary. Mr. Henderson made the following recommendations: 1) Grant, as appropriate, requests to terminate completed requirements of a remediation order. 2) Deny requests to terminate disciplinary orders. 3) Instruct staff to be sure orders are accurately captioned and public documents are properly described to avoid confusion. Dr. Rhyne made a motion to accept the recommendations made by the staff in regards to termination of consent orders. Dr. Jablonski seconded the motion and the motion passed unanimously.

Investigative Matter: A motion passed to close the session pursuant to Section 143-318.11(a) of the North Carolina General Statutes to prevent the disclosure of information that is confidential pursuant to Sections 90-8, 90-14, 90-16, and/or 90-21.22 of the North Carolina General Statutes and not considered a public record within the meaning of Chapter 132 of the General Statutes.

Incorrect Information on Web Site: Staff would like direction from the Board when incorrect information is found on the Board's Web site. Dr. Rhyne made a motion to direct staff to submit proposed protocols when incorrect information is found on the website. Dr. Jablonski seconded the motion and the motion passed unanimously

## **RETENTION OF MEDICAL RECORDS**

Physicians have both a legal and ethical obligation to retain patient records. The Board, therefore, recognizes the necessity and importance of a licensee's proper maintenance, retention, and disposition of medical records. The following guidelines are offered to assist licensees in meeting their ethical and legal obligations:

- **State and federal laws require that records be kept for a minimum length of time including but not limited to:<sup>1</sup>**
  - **Medicare and Medicaid Investigations (up to 7 years);**
  - **HIPAA (up to 6 years);**
  - **Medical Malpractice (varies depending on the case but should be measured from the date of the last professional contact with the patient)—physicians should check with their medical malpractice insurer);**
  - **North Carolina has no statute relating specifically to the retention of medical records;**
  - **Immunization records always must be kept.**
- **In addition to existing state and federal laws, medical considerations may also provide the basis for deciding how long to retain medical records. Patients**

---

<sup>1</sup> Physicians should retain medical records as long as needed not only to serve and protect patients, but also to protect themselves against adverse actions. The times stated may fall below the community standard for retention in their communities and practice settings and for the specific needs. Physicians are encouraged (may want to) seek advice from private counsel and/or their malpractice insurance carrier.

should be notified regarding how long the physician will retain medical records.

- In deciding whether to keep certain parts of the record, an appropriate criterion is whether a physician would want the information if he or she were seeing the patient for the first time. The Board, therefore, recognizes that the retention policies of physicians giving one-time, brief episodic care may differ from those of physicians providing continuing care for patients.
- In order to preserve confidentiality when discarding old records, all records should be destroyed, including both paper and electronic medical records.
- Those licensees providing episodic care should attempt to provide a copy of the patient's record to the patient, the patient's primary care provider, or, if applicable, the referring physician.
- If it is feasible, patients should be given an opportunity to claim the records or have them sent to another physician before old records are discarded.
- The physician should respond in a timely manner to requests from patients for copies of their medical records or to access to their medical records.
- Physicians should notify patients of the amount, and under what circumstances, the physician will charge for copies of a patient's medical record, keeping in mind that N.C. Gen. Stat. § 90-411 provides limits on the fee a physician can charge for copying of medical records.

### **MEDICAL RECORD DOCUMENTATION**

The North Carolina Medical Board takes the position that an accurate, current and complete medical record is an essential component of patient care. Licensees should maintain a medical record for each patient to whom they provide care. The medical record should contain an appropriate history and physical examination, results of ancillary studies, diagnoses, and any plan for treatment. The medical record should be legible. When the care giver does not handwrite legibly, notes should be dictated, transcribed, reviewed, and signed within a reasonable time. The Board recognizes and encourages the trend towards the use of electronic medical records ("EMR"). However, the Board cautions against relying upon software that pre-populates particular fields in the EMR without updating those fields in order to create a medical record that accurately reflects the elements delineated in this Position Statement.

The medical record is a chronological document that:

- records pertinent facts about an individual's health and wellness;
- enables the treating care provider to plan and evaluate treatments or interventions;
- enhances communication between professionals, assuring the patient optimum continuity of care;
- assists both patient and physician to communicate to third party participants;
- allows the physician to develop an ongoing quality assurance program;
- provides a legal document to verify the delivery of care; and
- is available as a source of clinical data for research and education.

The following required elements should be present in all medical records:

1. The record reflects the purpose of each patient encounter and appropriate information about the patient's history and examination, and the care and treatment provided are described.
2. The patient's past medical history is easily identified and includes serious accidents, operations, significant illnesses and other appropriate information.
3. Medication and other significant allergies, or a statement of their absence, are prominently noted in the record.
4. When appropriate, informed consent obtained from the patient is clearly documented.
5. All entries are dated.

The following additional elements reflect commonly accepted standards for medical record documentation.

1. Each page in the medical record contains the patient's name or ID number.
2. Personal biographical information such as home address, employer, marital status, and all telephone numbers, including home, work, and mobile phone numbers.
3. All entries in the medical record contain the author's identification. Author identification may be a handwritten signature, initials, or a unique electronic identifier.
4. All drug therapies are listed, including dosage instructions and, when appropriate, indication of refill limits. Prescriptions refilled by phone should be recorded.
5. Encounter notes should include appropriate arrangements and specified times for follow-up care.
6. All consultation, laboratory and imaging reports should be entered into the patient's record, reviewed, and the review documented by the practitioner who ordered them. Abnormal reports should be noted in the record, along with corresponding follow-up plans and actions taken.
7. An appropriate immunization record is evident and kept up to date.
8. Appropriate preventive screening and services are offered in accordance with the accepted practice guidelines.

#### **REVIEW OF POSITION STATEMENT:**

##### *Departure from or Closing of Medical Practices*

Issue: Review Committee referred this issue to Policy Committee to determine if the current position statement should be amended to cover nurse practitioners physician assistants.

5/2008 – It was pointed out that not all physician extenders work in the same circumstances. Many physician extenders are at-will employees; others work in practice environments in which they are the owner and/or the sole practitioner. The statement should cover both extremes. It was suggested that the layout of the statement could be similar to the Physician Supervision position statement, which

lists circumstances to be considered on a case by case basis. Additionally, it was stated that continuity of care for patients must be the ultimate concern.

**5/2008 BOARD ACTION:** Accept Committee recommendation

**7/2008 BOARD ACTION:** Todd and Dr. Walker to continue to work on a proposal.

**9/2008 BOARD ACTION:** Todd and Dr. Walker to continue to work on a proposal.

**11/2008 BOARD ACTION:** Todd and Dr. Walker to continue to work on a proposal.

**1/2009 BOARD ACTION:** Todd and Dr. Walker to continue to work on a proposal.

**3/2009 COMMITTEE RECOMMENDATION:** Todd will draft and circulate a revised Position Statement to both internal staff and external concerned parties and present the results at the May 2009 meeting.

**3/2009 BOARD ACTION:** Accept Committee recommendation.

### **BOARD CERTIFICATION DISTINCTION**

Issue: How North Carolina-licensed physicians may advertise their Board certification status to the general public?

- Mr. Brosius will attempt to develop language to add to the advertising and publicity position statement to be presented at this meeting for consideration.

**5/2008 BOARD ACTION:** Accept the proposed Position Statement with the following change. Do not delete the following sentence: "If patient photographs are used, they should be of the physician's own patients and demonstrate realistic outcomes." This Position Statement is to be published in the Forum for comments.

**7/2008 BOARD ACTION:** Submit the following proposed position statement with the amendment to the last sentence of the third paragraph.

**9/17/2008:** The Committee discussed the fact that the proposed changes to the current Position Statement would not be consistent with the information currently being provided on the Board's website. Additionally, a representative from the Medical Society recommended that the position statement should include PAs and NPs.

**9/2008 COMMITTEE RECOMMENDATION:** (Walker/Lennon) Add the following language to the position statement "To avoid misleading the public, the Board strongly encourages that the use of the term "Board Certified" only be used in advertisements when it refers to certification derived from a specialty board recognized by the American Board of Medical Specialties or the [American Osteopathic Association](#)."

**9/2008 BOARD ACTION:** Policy Committee to continue to address issue

**11/2008 BOARD ACTION:** Policy Committee to continue to address issue. Consideration to be given to making sure that physicians should only advertise board certification if that certification is in the specialty for which they are advertising. Dr. Saunders will attend January Policy Committee.

**1/2009 BOARD ACTION:** In an effort to have the strongest Position Statement possible, Todd will research the issue of disclosure and also survey other states regarding the issue. This information will be reported at the March 2009 Committee meeting.

**3/2009 COMMITTEE DISCUSSION:** Todd reported that after research of this issue he concluded that the Board can restrict the use of the term “board certified”. The issue posed then to the Committee was whether to revise the Advertising and Publicity Position Statement or set out the requirements for physicians to advertise themselves as board certified through rulemaking.

**3/2009 COMMITTEE RECOMMENDATION:** Todd will draft proposed rules based on similar rules in North Carolina and other jurisdictions. Todd will then check on viability of the Board adopting such regulations.

**3/2009 BOARD ACTION:** Accept Committee recommendation
