RE: Donald F. M. Bunce, II, D.O. -- Board reviewed request for consideration for licensure based on examination of the National Board of Examiners for Osteopathic Physicians and Surgeons of the U.S.A.

ACTION: Dr. Hooper moved that Dr. Bunce be informed that the North Carolina examination is FLEX, and the National Board of Examiners for Osteopathic Physicians and Surgeons is not recognized by the North Carolina General Statutes, and therefore the Board of Medical Examiners cannot grant his request for consideration of licensure on that basis. RE: Dr. Eugene F. Bartlett, Durham, N.C. -- Request to take the FLEX as a continuing education review.

ACTION: Dr. Galusha moved that Dr. Bartlett's request be denied for the following reasons: 1) This examination is not a continuing eddical education type of examination, and there are other forms of this available; 2) Security reasons--information on the examination could become available to others taking the examination for licensure; 3) Logistics--there would not be enough available space for physicians taking the examination for licensure if it were to become a CME exam; 4) Since the examination is a national examination, it would create too many problems and difficulties, and the Federation probably would not be able to handle it.

Seconded by Dr. Wilkerson and duly passed by vote of 6 for and one opposed.

RE: Dr. James D. Groseclose, Randleman, N.C. -- Board reviewed file.

Dr. Wilkerson moved that the meeting be adjourned until 9:00 a.m., Saturday morning, October 12. Seconded by Dr. Taylor and duly passed. Meeting adjourned.

Dr. Hooper: Dr. Anderson, you are in the Department of Pediatrics at Chapel Hill?

A: Yes, sir, that's right.

Q: Do you have any definite plans for practice here--after you finish your residency?

A: Well, I don't quite know yet--that's three years away, but we certainly do like this area.

Q: Have you had any difficulty with any medical licensing boards? A. No, sir

Q: Have you ever been convicted of a crime? A. No, sir

Dr. Anderson, continued

Dr. Hooper: Have you personally ever used narcotics, habit forming drugs or alcohol to excess? A. No

Q: Do you have any questions, Dr. Anderson?

A: No, sir.

Dr. Edmondson: Dr. Araneda, do you understand what is missing in your file?

A: I was told that it was incomplete. I was told about someone needing to send a letter who has known me for ten years.

Q: What are your plans for North Carolina?

A: I am planning to work in Anesthesiology at Duke Hospital.

Q: What is your citizenship status?

A: I am already an American citizen. I have my certificate here.

Dr. Araneda presented Certificate of Naturalization, No. 918 6437, issued June 19, 1972.

Q: Do you have any questions, Dr. Araneda?

A: I have to get this letter from a person who has known me for ten years? I don't know if I can get it--I do not know many people here for that long.

Dr. Partrick: Well, you just get a letter from some person who has known you for the longest amount of time, and all of these letters have to be addressed to this Board, and they have to be originals, not copies. If you have any other questions, please ask Mrs. Cooke outside.

Dr. Araneda: But what about this letter from dean -- I do not know if I can get it. You know, the mails, and everything in Argentina--I do not think I can get it out at all.

Dr. Partrick: Doctor, we cannot make a decision on your license until the application is complete. You cannot practice medicine until you have a letter here. We do not expect you to come up with a letter from someone if you haven't known anyone here that long. Just do the best you can, and we'll make a decision based on that, even if it's a letter of six or seven years. When we have a complete application we can make a decision on it. But this will have to be put off until the next meeting if you can't get these things in in about two weeks. That meeting is in December. A: Any time, I guess.

Q: Are you a citizen of the United States?

A: I am not now, but due for citizenship in about three months.

Q: Have you had any difficulty with any medical licensing board-- been in any trouble? A. No, sir

Dr. Necip Ari, continued

Dr. Partrick: The most important thing for us is to know that you have received a state license--we have to have that to base the endorsement on for your North Carolina license. You do all you can to get this form filled out by your state board as soon as you can and send it to us immediately. We will give this back to you to send to the medical board for them to fill out.

Dr. Ari presented his original diploma from medical school and a translation of same, which the Board accepted as certification of graduation for his credentials.

Dr. Hooper: Dr. Bryan, we have taken you out of turn for your personal interview because there are a few things in your application that puzzled us.

A: All right, sir.

Q: Did you practice in Mississippi?

A: To a limited extent, in north Mississippi, as Memphis immediately joins north Mississippi, and as I'm a consultant in Forensic Psychiatry.

Q: Why do you wish a North Carolina license?

A: Two reasons, sir--two professional reasons and one personal reason. The professional reasons are 1) I am in the field of Forensic Psychiatry--in order to testify as an expert witness, one is normally expected to be licensed in the state wherein one is to testify. I have received some inquiries from attorneys in the Raleigh/Durham area requesting my consultation, and therefore I've applied for licensure for this reason. Too, I've started an alcohol and drug program in the State of Tennessee in Memphis, at the present time, and shortly I hope to be extending it to the Chattanooga area. I'd like to expand that rehabilitation program into the State of North Carolina, and I like the state very much. I've lived all over the United States and from a personal standpoint, I find North Carolina the most satisfying of any place I've encountered.

Dr. Hooper: Am I to understand that you can't testify as an expert witness in a state unless you hold a license in that state?

A: In terms of Forensic Psychiatry, one is on very shaky grounds if one is not licensed. I've had this come up when I have testified, in fact.

Q: So, if someone called you to testify in Illinois, you would have to get an Illinois license?

A: In order to testify, specifically in terms of sanity, I have not consulted the North Carolina law, I have not consulted the Illinois law, but it is my understanding that this is a requirement, sir.

Q: Dr. Bryan, have you ever used narcotics personally, in any way? A. No, sir, I have not

Q: Have you ever used alcohol or habit forming drugs to excess? A. No, sir, I was a teetotaler until quite recently, and now occasionally I use alcohol in great moderation. But I was a teetotaler until three years ago.

Q: Have you ever had any difficulty with a medical licensing board? A. No, sir I have not

Q: Have you ever been convicted of a crime? A. No, sir I have not

Q: Have you ever been indicted? A. No, sir, although about two weeks after I made my application I was arrested. That case is scheduled to go to court next Tuesday. There is a possibility I may be indicted. I've also filed counter-charges in the case against the agency which filed charges against me.

Q: Would you care to tell us about it?

A: Yes, sir, I'll be happy to. (See file for complete interview)

ACTION: Dr. Galusha moved that the Board take no further action on Dr. Bryan's application for licensure until the hearing is completed, and the Board is furnished with complete court proceedings and documents and the application be brought back for the Board's consideration at that time, and Dr. Bryan possibly will be requested to make another appearance. A: Well, I have relatives down here in Charlotte, and I'm ready to phase out my practice in Ohio.

Q: What type of practice are you in?

A: I'm a General Surgeon. I've made contact with the three hospitals in Charlotte and I'll be a professional surgical assistant with certification. This is something that is very new and quite interesting. In Charlotte they have a regulation in which a general practitioner cannot assist in general surgery, particularly a major operation. In which case, they are having a very dire shortage of qualified surgical assistants, which is what I'll be doing. This is a completely new idea. And, as I phase out my practice in Ohio, I can still be doing things that I like to do and have been doing for the past 30 years. I can work 2 days a week or work 7 days a week because the demand is fantastic.

Q: Will you be a member of the medical staff?

 Dr. Staub: Well, I think we'll have to clarify this, since they said they didn't have any record of you according to our credential report. However, Dr. Mathews has presented a membership card in the Florida Medical Association. I think we'll have to make another inquiry. Why don't you write us and give us your number and that will help us in our contact again.
