Tri County Visiting Nurses, Inc., Charlotte, North Carolina

The Board adopted a motion that, with the advice of an attorney, a letter be written to this organization regarding patients who may receive, through home health care, services traditionally rendered only in hospitals. The Board adopted a further motion that this letter state the Board of Medical Examiners believes within the usual doctor, nurse, patient relationship a physician can issue an order for a nurse to administer intravenous fluids, blood, and blood products to a patient; however, it is the Board's opinion that the legality of the rendering of such treatment by a visiting nurse in the home setting is the type of issue which would be more appropriately posed to either the Board of Nursing or to the Attorney General's Office. The Board adopted a further motion that it declines to render a formal opinion concerning this issue.

Adjournment

As there was no further business for the Board of Medical Examiners to consider at this time, the President declared the meeting adjourned at 6:20 p.m. on August 13, 1983.
