Also in attendance were: Mr. Sid Kitchens, Physicians Health Program; Warren Pendergast, MD, Physicians Health Program; Anderson Spickard, Jr., MD, Vanderbilt University Medical Center; Mr. William H. Swiggart, Vanderbilt University Medical Center; Stephen Herring, MD; Past Medical Board President; Charles Trado, MD; Past Medical Board President and Kevin A. Kilbride, MD, Broughton Hospital.

## **MISCELLANEOUS**

### **Presidential Remarks**

Dr. McCulloch commenced the meeting by reading from Governor Easley's Executive Order No. 1, the "ethics awareness and conflict of interest reminder." No conflicts were noted.

Dr. Sathiraju welcomed everyone on behalf of Seth Hunt, Director, Broughton Hospital.

### **FSMB 2007 Annual House of Delegates Meeting**

**Motion:** A motion passed nominating Dr. Sathiraju to be the voting delegate for the Federation of State Medical Boards (FSMB) 2007 Annual House of Delegates Meeting.

### **Joint Statement Concerning CFC and HFA Albuterol Metered Dose Inhalers**

**Motion:** A motion passed to approve the following joint statement.

### **JOINT STATEMENT OF THE NORTH CAROLINA MEDICAL AND PHARMACY BOARDS CONCERNING CFC AND HFA ALBUTEROL METERED DOSE INHALERS**

The United States Food and Drug Administration has ruled that by December 31, 2008, manufacturers may no longer use chlorofluorocarbon (CFC) based propellants in prescription drugs formulated for inhalation, such as Albuterol metered dose inhalers. Accordingly, manufacturers are shifting production to metered dose inhalers that use a hydrofluoroalkane

(HFA) propellant. As a result, drug wholesalers and pharmacies are experiencing progressively worsening shortages of CFC-based albuterol inhalers as manufacturers phase them out. These shortages will, of course, only increase over time.

The Medical and Pharmacy Boards recognize that patients must have timely access to albuterol as a means of avoiding the morbidity and increased health-care costs associated with poor control of asthma and other respiratory disorders. Furthermore, the medical literature available on the subject indicates no clinical problems associated with substituting CFC-propellant albuterol inhalers with HFA-propellant albuterol inhalers. Finally, recognizing substitution of CFC-propellant albuterol inhalers with HFA-propellant albuterol inhalers will reduce both the number of call-backs to prescribers and the frustration of patients.

Under North Carolina law governing drug product selection, when a prescriber indicates on the prescription that product selection is permitted, pharmacists may substitute HFA-propellant albuterol inhalers for CFC-propellant albuterol inhalers. Therefore, a prescriber who wishes to maintain a patient on a CFC-based albuterol product must clearly indicate on the prescription that no substitution occur. As discussed above, however, CFC-based albuterol inhalers are being phased out and are increasingly unavailable to patients.

Prescribers and pharmacists should consult with their patients who use albuterol inhalers and explain the reason for any switch to an HFA-based product. Prescribers and pharmacists should also take care to reassure these patients that they are continuing to receive the same drug that they previously have used to control their respiratory problems.

#### **Retreat Planning Committee**

George L. Saunders, III, MD, Chair; Retreat Planning Committee, provided additional information regarding the Board Retreat to be held on January 19-20, 2007, in Chapel Hill.

#### **Proper Prescribing of Controlled Substances**

Dr. Spickard and Mr. Swiggart of the Center for Professional Health, Vanderbilt University Medical Center, gave a presentation on the proper prescribing of controlled substances. Vanderbilt University School of Medicine is accredited by the Accreditation Council for CME to sponsor continuing medical education for physicians.

## **MINUTE APPROVAL**

**Motion:** A motion passed that the November 15-17, 2006, Board Minutes are approved as presented.
