Thurston and Mrs. Louise J. McNeill, Assistant Secretary-Treasurer.

RE: Educational Council for Foreign Medical Graduates - The secretary reported that after three years of planning this Council has been organized and ready to function. That this Council will make available to properly qualified foreign medical graduates while still in their own country means of obtaining certification from This Council, and that it will provide hospitals and state licensing boards with the results of the screening available; that it will not serve as a placement agency; that it will not attempt to evaluate the foreign medical school, but will evaluate the individual doctor; that it will not act as an intercessor for foreign medical graduates having problems under discussion by state medical boards. It will also evaluate foreign medical graduates already in this country. The sponsors of this Council are the American Hospital Association, the American Medical Association, Association of American Medical Colleges and the Federation of State Medical Boards of the United States.

VERDICT: Dr. Thomas W. Baker moved that the Board of Medical Examiners require the certification of the Educational Council for Foreign Medical Graduates for internship and residency levels for all foreign medical graduates. This motion was duly seconded by Dr. Thomas G. Thurston and passed unanimously.

Dr. Thomas W. Baker moved that the president and secretary be empowered to act for the Board in individual cases of foreign graduates on interne and residency levels until July 1st, 1958. This motion was duly seconded by Dr. Thomas G. Thurston and passed unanimously.

RE: Foreign Graduates - State Institutions - The secretary reported that President Carl V. Tyner, Dr. L. R. Doffermyre and himself met with the deans of the three medical schools, representatives of the Hospital Board of Control, Mr. J. Melville Broughton, Jr. and Senator Kelly Bennett, and representatives of the State Sanatoria, Mr. Carl Council and Dr. J. W. R. Norton on November 1st, 1957, in Chapel Hill to formulate plans

for the Evaluating Committee for evaluation of the medical education of foreign graduates presently in the state institutions. That the deans readily co-operated with the plan formulated by the Board of Medical Examiners and the committee from the Hospitals Board of Control. That a nine man board was set up by the deans, with three educators from each of the three medical schools. That it was agreed that a report be made from the institutions with regard to the number to take the evaluating examination before plans were to be made for the examination. That the Sanatoria Board had reported three to take the examination, one of which was ineligible, one eligible to take the written examination of the Board of Medical Examiners, and one eligible to take the examination of the Evaluating Committee. That a report had not been received from the Hospitals Board of Control.

The question was discussed as to whether physicians from foreign medical schools would now be allowed to go to the state institutions.

VERDICT: Dr. J. B. Anderson moved that for the future applicants from foreign medical schools for positions in the state mental institutions and the State Sanatoria be required to furnish certification from the Educational Council for Foreign Medical Graduates. This motion was duly seconded by Dr. Thomas W. Baker and passed unanimously.

RE: Watts Hospital, Durham, North Carolina - A full letter of explanation from Dean W. R. Berryhill was presented by the secretary relating the affiliation of the University of North Carolina School of Medicine with Watts Hospital. He stated this affiliation had existed since 1935, is officially listed in the catalog of the University and is included in the report to the Council on Medical Education and Hospitals of the American Medical Association; that each chief of service at Watts Hospital has an appointment on the medical faculty of the University; that the students at the University attend teaching sessions at Watts Hospital. The question raised by Dean Berryhill was as to residents now serving in North Carolina or those who may be accepted prior to the activation of the screening tests by the Educational Council.

VERDICT: Dr. Edwin A. Rasberry, Jr. moved that pursuant to the letter from Dean W. R. Berryhill, the Board approves the affiliation between the University of North Carolina School of Medicine and Watts Hospital, Durham, North Carolina, and the ruling applying to the foreign graduate resident staff at the University of North Carolina will include Watts Hospital. This motion was duly seconded and passed unanimously.

RE: Dr. Willard W. Griggs, Norwood, North Carolina- (See previous Minutes) - The first report received in regard to Dr. Griggs' drug addiction was in July, 1953. He had surrendered his narcotic stamp on May 21st, 1953. Dr. Griggs remained under the surveillance of the Board. On June 21st, 1955 the Board, following recommendation of the Federal Narcotic Agent, recommended to the Narcotic Bureau that Dr. Griggs' narcotic stamp be reinstated, which was done as of July 25th, 1955.

The report of the State Bureau of Investigation dated December 6th, 1957, was presented to the Board, reflecting excessive purchase of narcotic drugs by Dr. Griggs from June 20th, 1956 to November 25th, 1957, and that he had not kept records of drugs dispensed or administered. Dr. Griggs was thereupon requested to appear before the Board of Medical Examiners for an interview.

Dr. Willard W. Griggs - continued

Dr. Griggs appeared and stated that he started taking drugs several months after reinstatement of his narcotic license; that he took morphine; that he had never had any trouble with barbiturates; that he personally consumed the majority of narcotics purchased. He related that he had also had some trouble with alcohol in July, 1957, which was the first time in four to five years; that he thought he was an alcoholic. That he went to Townes Hospital in New York in July, 1957 and stayed there about six weeks but reverted to drugs within 10 days after returning home. That he returned to Townes Hospital in December, 1957, for three weeks of treatment and had not had any drugs or alcohol since that time and is carrying on his practice. He said that it was too great a temptation for him to have his narcotic stamp. (See file for complete interview)

VERDICT: Dr. L. R. Doffermyre moved that Dr. Willard W. Griggs be informed that the Board of Medical Examiners will accept his voluntary surrender of his narcotic stamp to the proper authority, with narcotic order forms and any drugs on hand, upon the condition that he not reapply for reinstatement of same. And that he further be advised that the Board will keep under close surveillance his use of alcohol and will be interested in any steps that he might take to relieve his alcoholic addiction. And that he further be advised that the Board upon receipt of information that he has violated our trust again will not resort to an invitation to appear before the Board, but that he will be subpoenaed and asked to show cause why his license to practice medicine in North Carolina should not be revoked permanently. It is further the directive of this Board that he report at three month intervals for the next three years to Dr. Thomas W. Baker of Charlotte, giving him any pertinent facts with reference to his rehabilitation. This motion was duly seconded by Dr. J. B. Anderson and passed unanimously.

The above verdict was read to Dr. Griggs and he stated that he would be glad to surrender his narcotic stamp and order forms, but that he did not have any narcotics on hand. Dr. Griggs was requested to advise the secretary when he had complied with the directive that he surrender his narcotic stamp; et cetera.

RE: Dr. Richard Allen McElroy, Fair Bluff, North Carolina- The secretary presented report of the State Bureau of Investigation under date of December 2nd, 1957, which related that Dr. McElroy was arrested by officers in a dazed condition and could not walk; that there was no odor of alcohol; that he was driving his car when arrested; that Dr. McElroy stated he was in this condition as he had been struck on the head with a brick by some unidentified person. This investigation brought to light that Dr. McElroy had written narcotic prescriptions for persons who had not been examined or seen by him.

The narcotic agent related that he was asked by officers in Fair Bluff to make an investigation. He stated that Dr. McElroy had not made purchases considered excessive; that he had not maintained records to account for all drugs; that he had written prescriptions for excessive amounts of dilaudid in the name of a woman that investigation revealed does not exist, at the request of the daughter, and had given said prescriptions to the daughter.

Dr. Richard Allen McElroy continued -

Dr. McElroy stated that there was only one instance of writing prescriptions for a patient he had not seen nor examined. That a woman came to his office with a note on a prescription pad from a doctor in Mullins, who said he was releasing a terminal cancer patient and requested that she be given a certain narcotic. This woman came in the first time to make arrangements and then came back for the prescriptions. Dr. McElroy said after about the fourth or fifth time he got suspicious and went into the country in an effort to find the alleged patient, which he was unable to do and he was advised that a woman answering his description had been picked up by the deputy sheriff that morning.

Dr. McElroy stated on the night of his arrest he was in his office seeing a patient, that after the patient left he estimated in about 10 minutes he was leaving his office to go home and that he has no further recollection until the next morning; that he awakened with a sore bruise on his forehead; that evidence lead to the fact that he had been hit on the head with a brick by an unidentified person; that he has no reason to suspect anyone. (See file for full interview)

VERDICT: Dr. J. J. Combs moved that Dr. Richard Allen McElroy's statement to the Board of Medical Examiners be accepted as information and that the president instruct him in the manner in which he violated the narcotic laws and that this information will be kept in the office of the secretary. This motion was duly seconded by Dr. J. B. Anderson and passed unanimously.

RE: Dr. James Alexander Robson, who is located at the Western North Carolina Sanatorium, graduate of Queen's University, Ireland, with the M. B. and M. D. degrees, was granted special limited license to the State Sanatoria in January, 1954, the same having been renewed each year. In January, 1954, Dr. Robson was approved to take the written examination of the Board, of which privilege he did not avail himself. Therefore, Dr. Robson was advised that he would be required to make another appearance before this Board could consider further approval to take the examination.

Dr. James Alexander Robson appeared at this time. (See interview)

VERDICT: Dr. J. B. Anderson moved that Dr. James Alexander Robson be granted the privilege of taking the written examination in June, 1958. This motion was duly seconded and passed unanimously.

The meeting was adjourned.

tions. (See reports and previous Minutes) Following the interview with Dr. Parrott on May 5th, 1957, he was requested to surrender his narcotic stamp, order forms and all narcotics on hand, which directive was carried out.

In November, 1957, an additional investigation was made by State Bureau of Investigation Agent Pope due to the many runors and angles in Duplin County. (See report)

Dr. Parrott appeared at this time to apply for recommendation of reinstatement of his narcotic license. Agent Pope stated that he felt Dr. Parrott had been put in the middle of a situation as a result of two factions in Duplin County and that his situation had been made a personal thing; that he did not believe Dr. Parrott was addicted to drugs; that there had been no evidence of his having written prescriptions since surrendering his narcotic stamp. Upon being questioned, Dr. Parrott stated that he felt he was able to handle the situation with a narcotic stamp; that he had not had any medication of any kind since the last of January, 1957.

VERDICT: Dr. E. A. Rasberry, Jr. moved that recommendation be made to the Narcotic Bureau that Dr. John A. Parrott's narcotic stamp be restored. Dr. Thomas G. Thurston duly seconded this motion and the same was passed unanimously.

RE: Lt. Col. Arthur L. Hessin, graduate of the University of Toronto, Canada, who is stationed at Fort Bragg, appeared to petition for the privilege of taking the written examination given by the Board. He stated that he had gone into the Army following training and had never been in practice. He is on his third tour at Fort Bragg and at present is chief of the N. P. Service, Chief of the Mental Hygiene Service and acting in an advisory capacity in psychiatry. He stated that he should be eligible for retirement at the age of 55, is ready to take his Psychiatry Boards and can not do so without a state board. That he has made no commitments and has no plan as to the type of practice he will do as to hospital, teaching or clinical, but that he had never done any private practice; that he was partial to this area in which to live.

VERDICT: Dr. L. R. Doffermyre moved that Dr. Arthur L. Hessin be allowed to take the June, 1958 written examination. That this motion was duly seconded and passed unanimously.

RE: Biennial Registration of Physicians - The secretary reported favorably on the number of physicians who have registered. A letter from the University of North Carolina School of Medicine to the state Attorney General with reference to internes and residents who are licensed being required to register biennially was presented to the Board. A copy of the assistant Attorney General's ruling was reviewed, which in essence was that as far as technical coverage of the statute is concerned, it is applicable to interne and resident physicians who have been licensed to practice medicine. That it was his understanding that the State Board of Medical Examiners had excepted licensed physicians who do not in fact practice medicine; that those who are licensed to practice medicine and do in fact prac-

VERDICT: Dr. Thomas W. Baker moved that the Board of Medical Examiners follow the statute that all physicians licensed to practice medicine in the State of North Carolina register and pay the required registration fee. This motion was duly seconded and passed unanimously. (See p 129 these Minutes)

RE: Dr. Miriam Naomi Muldrow, colored, Whiteville, North Carolina - Dr. Muldrow was convicted at the November, 1957 Criminal Term of Superior Court in Columbus County, North Carolina of violation of the Narcotic laws. Dr. Muldrow is alleged to be addicted to narcotic drugs.

Pursuant to order of the Board of Medical Examiners, charges and accusations were made to Dr. Muldrow and duly served. Attorney Ozmer L. Henry advised the secretary and attorney for the Board that Dr. Muldrow in accordance with the judgment of the court had committed herself to the United States Public Health Service Hospital in Lexington, Kentucky, for treatment. Upon receipt of this information the secretary conferred with the president of the Board and attorney for the Board conferred with Attorney Henry and made the following agreement, which is confirmed by letter as of January 7th, 1958 from Mr. Henry:

"I beg to confirm telephone conversation just had from your office with Mr. John H. Anderson, Jr. in regard to Dr. Miriam Muldrow of Whiteville.

"This is to confirm agreement that you will be promptly advised when Dr. Muldrow leaves the United States Public Health Service Hospital at Lexington, Kentucky, whether by discharge or otherwise, and further that Dr. Muldrow will not resume the practice of medicine without having made full report to you and otherwise complied with the wishes and directions of your Board.

"I appreciate the agreement to continue hearing on Dr. Muldrow's case until she has been released from the hospital and afforded an opportunity to appear in person and make appropriate answer, and I am glad to accept, in her behalf, agreement as herein expressed to give you her full cooperation and not to resume the practice of medicine as herein set forth.

"I shall be glad to have Dr. Muldrow execute such an agreement and would do so, but recognize that I shall not have an opportunity to send it to Lexington, Kentucky, and have it returned by the time of your meeting on Saturday. She will, however, put the agreement in such form as your Board may desire."

S/ "Ozmer L. Henry"

RE: Dr. Anibal Adan - Dr. Adan was granted special limited license to Duke University School of Medicine on October 4th, 1954. On July 1st, 1956 he transferred to Presbyterian Hospital in Charlotte under the auspices of Duke, as a resident. In July, 1957 his special limited license was extended to January 1st, 1958. Dr. Adan is in this country on an immigration visa and he stated that it was his original intention to return home upon completion of training but now that he plans to remain in this country.

Dr. Howard Ausherman, Director of the Department of Anesthesia at Presbyterian Hospital, appeared at this time to petition that Dr. Adan's special limited license be extended to July 1st, 1958, at which time he expects to procure an additional doctor for that department and he also appealed to the Board to give Dr. Adan the opportunity to take the North Carolina Board for full license and if licensed he would be offered a position on the staff there. He stated that in his opinion Dr. Adan was well qualified and had rendered a good service at Presbyterian Hospital. Dr. Ausherman presented letters of recommendation from several doctors on the staff there. Dr. R. L. McCarty, surgeon on the staff at Presbyterian, appeared before the Board to make a similar appeal for Dr. Adan.

The Board was advised that Dr. Adan took the examinations of the Virginia Board of Medical Examiners in December, 1957.

After considerable discussion the following is the decision of the Board:

VERDICT: Dr. Thomas G. Thurston moved that Dr. Anibal Adan be granted an extension of his special limited license as a resident at the Presbyterian Hospital, Charlotte, to July 1st, 1958. This motion was duly seconded by Dr. E. A. Rasberry and carried by a vote of five.

Dr. Thomas G. Thurston moved that contingent upon Dr. Anibal Adan passing the Educational Council for Foreign Medical Graduates' screening test in March, 1958, that he be permitted to take the written examination of the North Carolina Board of Medical Examiners in June, 1958. And should he fail the screening test of the Educational Council for Foreign Medical Graduates, he will be given no further consideration for licensure of any type in the State of North Carolina based on his present qualifications. This motion was duly seconded/and passed by Dr. Thomas W. Baker unanimously.

RE: Revocation of Medical License - Dr. Thomas W. Baker moved that the general policy will be if the license of a physician to practice medicine in North Carolina is revoked, that the Board shall not reconsider its action under one year. This motion was duly seconded by Dr. J. B. Anderson and passed unanimously.

RE: Dr. George W. Melchior - The secretary advised that Dr. Melchior asked on Monday, January 6th, 1958, for an interview at this meeting and upon direction of the president, Dr. Melchior was advised that the agenda had been set and the time was filled. The secretary presented letters from citizens of Wilson County on behalf of Dr. Melchior.

RE: Dr. Fred Eugene Ball, Jr. appeared applying for license by endorsement of credentials. He is a diplomate of the American Board of Internal Medicine and Cardiovascular Diseases.

Dr. Thurston: Do you plan to practice in Chapel Hill?
 A. I have no definite plans at this time. I think you gentlemen should know I had a coronary thrombosis several months ago and my physicians have advised me not to practice at this time. I am attending conferences and things at the University and making rounds with Dr. Craige. I felt I would like to be licensed in this state and feel a part

of medicine. I am on leave of absence from the University of Illinois but I have given up my practice in Chicago. The only reason I am on leave of absence is my colleagues persuaded me not to resign. I have no plan to return to Chicago. I am staying at the Carolina Inn. We have been there 2½ months. We are attempting to get some property there.

Dr. Combs: You are going to buy a home?

A. We hope to.

Dr. Baker: If and when you resume practice, do you plan to practice in Chapel Hill or be connected with the University?

A. I can not answer that. I have been approached by people in the state here, but I am not at liberty to divulge them at this time. I think it better to say I do not know.

Dr. Combs: It is the policy not to license one until he is ready to begin practice. If you have definite plans that makes it better. Would it be satisfactory after your appearance if the Board told you if you wanted to go to practice within the next year, set up an office, you can get license?

A. I have no feeling about that one way or the other.

Dr. Combs: If the Board saw fit to go ahead and give you license would you join the medical society?

A. I am a member of the Chicago Medical Society now and I am attending meetings. I can not answer that. I would rather you would take your routine way. I am in the process - - I am not a citizen of North Carolina. I am investigating with my lawyer certain things that make it uncertain. It is all above the board doctor. I do not intend to work at this time. I am receiving compensation from some insurance policies I have. Under those policies I am not permitted to accept compensation.

Dr. Baker: A license is really not necessary at this time?

A. It is not necessary at this time. For instance, I wanted some medicine for myself and I just wrote a prescription for myself and sent it to Chicago. I have never been any place without being part of an organization. I do not want in anyway to ask anything - it is entirely in your hands.

Dr. Baker: You do not plan to practice if you had a license before next May?

A. That is entirely correct. I have no reason to practice.

Dr. Tyner: Our policy is if and when you definitely locate and signify that, you could be told that you could begin practice.

Dr. Combs: If the Board sees fit to hold to its rule, you are not prejudiced. Do you have any idea if you practice, how long before your physician would give you permission to practice?

A. Dr. Craige has told me he does not feel that I am ready to practice.

- Dr. Tyner: Have any complaints been filed against you by any board of medical examiners? A. No sir
- Q. Have you ever had any convictions in court? A. No sir
- Q. Have you been addicted to narcotics or barbiturates?
- A. No sir

VERDICT: Dr. J. B. Anderson moved that Dr. Fred Eugene Ball, Jr. be approved for license by endorsement of credentials, if he establishes residence in North Carolina and wants to begin practice, and the secretary is given authority to grant license within a period of one year. This motion was duly seconded by Dr. T. W. Baker and passed unanimously.

RE: Dr. Jessie Lee Cavener appeared applying for license by endorsement of credentials.

- Dr. Thurston: You are on the staff at Duke and the Veterans Administration Hospital in Anesthesiology? You have been in Anesthesiology all the time?
- A. No, I began doing Anesthesiology in 1946. I was doing Gynecology too then.

- Dr. Thurston: How long have you been doing Anesthesiology entirely?
- A. About two years.

- Dr. Baker: Are you at the Veterans Administration entirely?
- A. They pay me, but I am listed at Duke.

- Dr. Thurston: You are with Dr. Stephen at the Department at Duke?
- A. Yes.

- Dr. Tyner: Have any complaints been made against you by any examining board? A. No sir
- Q. Have you ever been convicted of any crime? A. No sir
- Q. Have you ever had any difficulty with the Narcotic Bureau? A. No
- Q. Have you ever used narcotics or barbiturates habitually?
- A. No sir

- A. I am eligible to take them.

VERDICT: Dr. Jessie Lee Cavener was approved for license by endorsement of credentials.

RE: Dr. John Letcher Chesnut appeared with incomplete credentials applying for license by endorsement of credentials.

- Dr. Baker: You have been licensed by four boards. Why so many changes?
- A. Virginia was my home and I wanted a license there. I had considered practicing in West Virginia. I live about two miles from the line. Then when I finished training in internal medicine they offered me a position at a state institution at Rome, Georgia
- Dr. Baker: You are now with the Gaston County Health Department in Gastonia?
- A. That is right.
- Q. What position?
- A. Indoctrination now. They have offered me a position at the Davie Yadkin Counties as health officer.

Dr. John Letcher Chesnut continued

Q. Where were you in 1957?

A. I was at my home. I have not done anything in about 15 months.

Q. Why was that ?

A. I wanted some time. I had some things to do. I have a farm, was having some work done and was leaving the position at Rome.

Q. Have you done public health work before?

A. Two years with the Tennessee Health Department and T. V. A. back in 1940-43. Then I went back in training and took training in Internal Medicine and was offered the position as internist.

Q. How long before you will go to Davie-Yadkin?

A. In about a month if I get license.

Dr. Combs: Have you ever done private practice?

A. I did nine months in Virginia about 1950

Q. Why did you leave private practice?

A. I was doing internal medicine in Hot Springs and I could not make enough to pay office rent.

Q. Have you ever lost any time from medical work because of your health?

A. No. I was turned down by the Army because of my blood pressure was above army standards. My general health is better now than when the Army turned me down.

Dr. Tyner: Have any complaints been filed against you by any board of medicine? A. No

Q. Have you ever been convicted in court? A. No

Q. Have you ever had any trouble with the Narcotic Bureau? A. No

Q. Have you ever been addicted to the use of narcotics or barbiturates? A. No

VERDICT: Dr. John Letcher Chesnut was approved for license by endorsement of credentials, if and when his credentials are completed satisfactory to the secretary.

RE: Dr. Sanford Irwin Cohen appeared applying for license by endorsement of credentials, with incomplete credentials. Dr. Cohen was granted special limited license to cover him as a resident in Psychiatry in October, 1954, and later he went into the Army.

Dr. Baker: When did you take the South Carolina Board?

A. December 11th. I have a letter asking for fee and saying it would be sent.

Dr. Combs: What do you want to do in North Carolina?

A. I think I will be here permanently on the staff at Duke.

Q. What is your position now?

A. Instructor in Psychiatry at Duke.

Q. You have an appointment at Duke?

A. Yes.

Dr. Sanford Irwin Cohen continued

- Dr. Tyner: Have any complaints been filed against you by any examining board? A. No sir
- Q. Have you been convicted in any court of law? A. No sir
- Q. Have you ever had any trouble with the Narcotic Bureau? A. No sir

That is no prejudice against you or your credentials. I expect the attitude would be that when you locate in North Carolina, if before January 1st, 1959, you can get your license.

A. It is a straight purchase of the Center and the practice.

Q. You will own it, no third party?

A. No third party at all.

Dr. Anderson: What kind of work will you do?

A. Strictly preventive, no curative work whatsoever. The reason I left the 12 years security of T. W. A. is because of the preventive aspects that Dr. Robertson has promoted. His record is unusual. I think it will be a real boon to industry.

A. Yes. There is no intent to get into corporate practice. - - - health maintenance program. That is the basic - I think we can offset some trend towards socialized medicine. We will refer back to the private practitioner. I have gone around the last month looking over the situation. There are some of the employees people that never see a doctor.
