I sewed up his finger, on the way home he regurgitated, I rushed there, gave mouth to mouth resuscitation, took him to the hospital, saved his life. I was totally exonerated. This was Roanoke County. When I rushed to the house the whole neighborhood was standing by, the neighbors all around there were my patients. It never got to a court case. That in 1951 an investigation was made while he was employed as a physician at a government facility in Colorado, which disclosed he had diverted narcotic supplies to his own personal use. At that time he pleaded guilty in the United States District Court to violation of the Federal narcotic law and was sentenced to nine months to be served in an institution to be designated by the United States Attorney General, a two years' probation to follow.
