No further word was heard from Dr. Rader until he applied to take this examination. He was requested to appear at this time.

Dr. Rader appeared at this time and stated that following his attempt in 1958 to take the written examination he went to Grady Hospital for an internship; that he did not receive credit for the same as he did not finish it; that he wasn't too well and his work was not satisfactory. That he then remained at home four months, then went to Booth Memorial Hospital in Flushing, New York, for an internship, which was accredited; that he did six months of residency there in Internal Medicine. Credentials for licensure by endorsement of credentials and special limited license were reviewed by members of the Board.

RE: Dr. W. A. Hoover, Murphy, North Carolina - Dr. Hoover was requested to appear before the Board at this time, which he failed to do. Dr. J. B. Anderson stated that he had talked with people in his community; that he had ascertained he was working every day and did not obtain any derogatory information.

RE: Dr. George Ashby Winstead (See previous Minutes) Dr. Winstead appeared for a routine visit, at the request of the Board. Dr. J. B. Anderson advised that he had talked with people in his community, who stated he was working every day; that he did not obtain any derogatory information. It was the consensus of the Board that he is still an emotional problem and it directed that he be seen in May, 1963.

VERDICT: Dr. J. B. Anderson moved that Dr. George Ashby Winstead be continued under surveillance. This motion was duly seconded and passed unanimously.

RE: Dr. Elizabeth Veeder, graduate of Albany Medical College in 1946, applied for license by endorsement of credentials, however, she is a diplomate of the National Board of Medical Examiners, with no state medical license by which she can obtain endorsement. She has accepted a position at Duke University as physician for Duke Woman's College. Dr. Veeder was sent requirements for written examination, but due to the inadequate period of time she was unable to avail herself of this opportunity.

Dr. Veeder continued

Drs. E. L. Persons and Eugene Stead appeared to make an appeal to the Board. Dr. Persons stated that the present incumbent is retiring and that it had been a problem to get a suitable replacement; that this physician seems ideal for the position. He said if an arrangement could be made for a limited license she would essentially be doing only work delegated to her as director of Student Health; that he was responsible to the University and to Dr. Stead for all student care on both campuses. Dr. Stead stated that he would be able to classify her as a resident. He also stated, upon inquiry, that it would be his idea if she stayed on that she would take the written examination of the Board for licensure in 1963. They were advised that this arrangement would not give her the privilege of prescribing narcotics nor joining the medical society. Dr. Persons stated that she would not need narcotic license.

VERDICT: Dr. L. R. Doffermyre moved that Dr. Elizabeth Veeder be granted special limited license to Duke University School of Medicine, with the understanding that she take the written examination of this Board in June, 1963, provided all credentials are complete and after a personal appearance. RE: Dr. Dean Tester - The secretary presented letter from Dr. Robert E. Sandy, Radiologist of Washington, North Carolina, advising that he was attempting to obtain coverage for his Radiological practice in the Beaufort County Hospital during the week of August 13-18th; that Dr. Robert J. Reeves had advised he had one resident, Dr. Dean Tester, resident available. Dr. Tester is on a limited license to Duke University School of Medicine on the basis of endorsement of credentials.

VERDICT: It was moved, seconded and passed unanimously that the Board would extend the geographical limitation of Dr. Dean Tester's limited license to the Beaufort County Hospital for one week August 13-18th, 1962, provided Dr. Tester meets the requirements and that he will be under Dr. Robert J. Reeves' responsibility.

The secretary presented letter from James T. Barnes, Executive Director of the State Medical Society announcing the election of the incoming Board of Medical Examiners beginning January 1st, 1963. This was received as information.

RE: Dr. Doralea R. Harmon, Highlands, North Carolina -The secretary advised that the State Medical Society felt that due to the unfavorable publicity that the Board received in the newspapers that a letter written by Dr. Harmon to the Asheville Citizen-Times and published by it, should be circulated among legislators and county medical societies. It was not the concensus of the Board of Medical Examiners that this be done.

VERDICT: Dr. L. R. Doffermyre moved that the secretary pass the feeling of the Board of Medical Examiners on to the executive director and Executive Council of the State Medical Society. This motion was duly seconded by Dr. Carl V. Tyner and passed unanimously.

RE: Dr. Jacqueline C. Hijmans was granted license by written examination in June, 1956, limited geographically until citizenship obtained. It is the policy of the Board in such case that a physician be given six years to obtain citizenship or license to become null and void. However, in reviewing the minutes in regard to Dr. Hijmans this stipulation was not spelled out.

Dr. Hijmans has advised that she is in the process of obtaining citizenship and has asked for an extension of time to obtain the same.

Dr. E. A. Rasberry, Jr. advised that she is associated with Dr. J. T. Sessioms at the University of North Carolina School of Medicine and is married to Dr. Jerome Harris of the Department of Pediatrics, Duke University School of Medicine.

VERDICT: Dr. J. B. Anderson moved that the secretary obtain definite statement from Dr. Jacqueline C. Hijmans as to when she expects to obtain citizenship and report to the Board at its next meeting in July. This motion was duly seconded by Dr. L. R. Doffermyre and passed unanimously.

The Board directed that he be seen in May, 1963.

RE: Dr. Victor H. Prusa, Taylorsville, North Carolina, was requested to appear at this time for a routine appearance, which he failed to do. Dr. T. G. Thurston advised that he was no longer on the staff of the hospital there.

Since that time he has been under the surveillance of Dr. M. R. Doffermyre, who has given favorable reports on him. Dr. Doffermyre reported that he had visited Dr. Straughan a number of times when he was not expected and his condition at all times appeared good.

Dr. Doffermyre advised the Board that Dr. Straughan is having and has for some years had a great deal of difficulty with his wife, who is addicted to drugs; that she is continuously in and out of institutions; that she is now at Bowman Gray; that Dr. Straughan has been advised by his physician friends to surrender his narcotic tax stamp on account of the problem with his wife. RE: Dr. J. R. Medlin (See previous Minutes) Following trial in the superior court in February, 1961, Dr. Medlin was placed on probation for five years. On June 19th, 1961, the Board ruled that it would allow him to continue the practice of medicine in the State of North Carolina, provided he continues his employment at the John Umstead Hospital under the supervision of Dr. James L. Cathell. Reports received from Dr. Cathell have been favorable. However, in May, 1962, Dr. Cathell reported to the Board that Dr. Medlin was doing good work, but that he had no insight into himself; that he had received rumors of some misconduct on his part on week-ends, which he spends at his home in Rural Hall.

Dr. Medlin requested that he be allowed to appear at this time and he appealed to the Board to allow him to return to general practice; that he is not happy at Butner.
