- - - - -

The Board of Medical Examiners of the State of North Carolina convened at 6:00 o'clock P. M. at the Sir Walter Hotel, Raleigh, North Carolina, Sunday, June 19th. The following members of the Board were present: Drs. J. B. Anderson, President, Joseph J. Combs, Secretary-Treasurer, L. R. Doffermyre, Edwin A. Rasberry, Jr., Thomas G. Thurston, Carl V. Tyner, and Mrs. Louise J. McNeill, Assistant Secretary-Treasurer. Dr. Thomas W. Baker was absent from the entire meeting due to illness.

The following foreign medical graduates appeared petitioning for the privilege of taking the written examination:

RE: Dr. Ursula M. Anderson, graduate of the University of Liverpool, England, M. B. Degree, 1952, appeared applying for permission to take the written examination. She hold the certificate of the Educational Council for Foreign Medical Graduates. She plans to practice with the State Board of Health.

Dr. Combs: Do you hold license in Connecticut?

A. Yes

Q. How did you get that license?

A. I took the examination in 1959

Q. Where have you been working?

A. At Yale

Q. Have you had a narcotic license?

A. Yes

Q. Have you had any trouble with narcotics?

A. No

Dr. Rasberry: What work will you do with the State Board of Health?

A. In the capacity of a pediatrician. The details have not been worked out.

Dr. Thurston: How did you get interested in North Carolina?

A. I was recommended from Yale to Dr. Norton one year ago.

Dr. Anderson: Do you have a license any where besides Connecticut?

A. No, I have only been in this country two years.

Dr. Combs: Should the Board grant you permission to take the examination, it will be geographically limited until you get citizenship. You would probably be limited to the Board of Health. If you left there, we would change it up until the time you became a citizen. We give you six years to get citizenship and if you have not gotten citizenship at that time the Board may take up your license.

VERDICT: Dr. J. J. Combs moved that Ursula M. Anderson be granted permission to take the written examination and if she passed the license to be limited to the State Board of Health. This motion was duly seconded by Dr. L. R. Doffermyre and passed unanimously.

RE: Dr. Joseph U. Toggia appeared applying for permission to take the written examination. He was graduated by the Medical University of Rome, Italy, in 1950 and holds the certificate of the Educational Council for Foreign Medical Graduates. He is married to a native of North Carolina and presented his immigration card. He received his residency training at Bowman Gray School Medicine.

Dr. Combs: What are your plans as to North Carolina?

A. I was hoping to be an instructor in Neurology at the University of North Carolina. I have learned since that it is research and I am not interested. So I have had to give up this. I will be in Charlotte this year as a neurologist. I have received an interview from several doctors, including Drs. Coffey and Culbreth and Drs. Fisher and Gage helping me in starting to be associated with the clinic.

Dr. Raspberry: Where have you been?

A. I was three years in North Carolina at Bowman Gray in Neurology. I left Bowman Gray in 1958. I was required to go abroad for a period of two years to return as an immigrant.

Dr. Anderson: Did you take training in Neurology or Neurological Psychiatry?

A. I was in Neurology.

Q. Do you have any other license besides special limited license?
A. In Canada.

Q. Have you had any difficulty with a licensing board or the Narcotic Bureau?

A. No, I do not have a narcotic license in the United States. I understand there may be a position at the Veterans Administration Hospital in Salisbury. Dr. Gage said he would be glad to help.

VERDICT: The Board voted four to one to grant Dr. Joseph U. Toggia the privilege of taking the written examination and if successful to be granted limited license until citizenship obtained.

RE: Dr. Jan de Bakker, graduate of the Medical College of Virginia and an immigrant, appeared applying for the privilege of taking the written examination. Dr. de Bakker received his first two years of medicine at Duke University School of Medicine. He presented immigration visa. He is a native of Holland.

Dr. Combs: Why did you transfer from Duke to Medical College of Virginia?

A. I had a contract for two years and that was not renewed.

Dr. Tyner: What kind of contract?

A. This was an arrangement with the dean that I should transfer to another school. They did not have enough vacancies. They supported me when I finished my first two years.

Dr. Anderson: What are your plans?

A. I am to take an internship at the Medical College of Virginia. I plan to come to North Carolina for specialty in surgery. Probably western North Carolina. I spent a good deal of my time in western North Carolina. I lived in Elkin three years. I went to school there and Maryville, Tennessee. I worked for Dr. Tate. After three years I went to Maryville College. I tried to get in at the University of North Carolina and could not on account of my citizenship status. I came in this country in 1948 by jumping ship. In 1942 I joined the underground movement in Holland. Then I joined the Marines, then I came back from Indonesia where I fought against the rebels. I came to Holland and tried to immigrate, so I took the short end around, became a sailor and jumped ship. I had a friend in North Carolina. He said he would see what he could do. I came to North Carolina and joined him. From there I went to Banner Elk. In 1949 they issued a statement by the Federal Government saying all aliens should report. I had a legal battle of eight years. After a long drawn up process, I got a job with Dr. Farmer. I went to the Bahamas and came through Florida.

VERDICT: Dr. Jan de Bakker was unanimously approved to take the written examination and if successful, to be granted limited license until citizenship obtained.

RE: Dr. Richardo Galbis-Beltran appeared applying for permission to take the written examination. He was graduated by Bowman Gray School of Medicine. He presented his immigration card. He is a native of Cuba.

Dr. Anderson: What are your plans as to North Carolina?

A. I like Greensboro. I know many people there. I guess, if I practice in North Carolina, I would practice in Greensboro.

Q. What type of practice will you be interested in?

A. I like dermatology and orthopedics.

Dr. Raspberry: Where are you going to interne?

A. That is one thing I must consider. I am going to Cuba in one week. Something disagreeable has occurred. You can not inherit from your parents if you are out of the state. They would have to transfer this during their life. Then I will work in Psychiatry at Bowman Gray for the rest of the summer. I do not know whether I will stay here or go to the District of Columbia General or come back.

Q. Do you not have to have an internship by a certain time?

A. Yes, if I had routinely followed through, but I have to finish up this problem in Cuba first. Then I will come back here. I will be in the Psychiatric Service at Bowman Gray. Then afterwards I plan to go to the District of Columbia for internship. My uncle is there. I will return eventually.

VERDICT: Dr. Richardo Galbis-Beltran was unanimously approved to take the written examination and if successful, to be granted limited license until citizenship obtained.

The president related that he had reviewed all questions for the written examination.
