RE: Dr. Thomas R. Acklen, Jr. appeared with incomplete credentials applying for license by endorsement of credentials in order that he may locate to practice radiology in Roanoke Rapids, where he has a contract with the Roanoke Rapids Hospital.

Dr. Thurston: You plan to go to Roanoke Rapids?

A. Ues

Q. Where have you been since 1953?

A. Internship, a year of medical residency at Methodist, two years in the service, and Radiology Residency at the Medical College of Virginia.

Dr. Anderson: What are you doing in Washington?

A. Locum tenens.

Dr. Combs: When do you want to go to work?

A. They have someone to cover the hospital until I can get there.

Dr. Anderson: You have never had any difficulty with the Narcotic Bureau, have you? A. No sir

Q. Have you ever been convicted of a crime? A. No

Q. Have you ever had any trouble with narcotics, hypnotics? A. No

VERDICT: Dr. Thomas R. Acklen, Jr. was approved for license by endorsement of credentials, if and when his credentials are completed satisfactory to the secretary. (Credentials completed)

RE: Dr. Charles Glen Adkins appeared applying for license by endorsement of credentials. He appeared in May, 1960 applying for license by endorsement, limited to Duke University School of Medicine, where he was a resident in Anesthesiology, at which time he was approved contingent upon completion of credentials. Dr. Adkins did not complete his credentials and the secretary was advised by Dr. C. R. Stephen, Professor of Anesthesiology, that Dr. Adkins had discontinued his residency training. Dr. Adkins is now applying for full license to practice in the state.

Dr. Charles Glen Adkins continued

Dr. Thurston: You practiced where?

A. In crater, W. Va.

Q. You decided to go into Anesthesiology?

A. Yes

Q. It did not work out?

A. I decided I would rather do general practice.

Q. Had you done general practice?

A. Yes

Q. How much anesthesia did you do?

A. Six months

Q. Where will you practice?

A. East Durham

Q. Do you plan to do some anesthesia?

A. No, I decided I did not want to do it.

Q. Where will you be affiliated?

A. Watts

Q. Will you be associated?

A. No sir, I hope to later.

Q. It took you six months to make up your mind?

A. That was enough, it just did not suite me.

Q. You did not like being in a group?

A. It was completely different from general medicine. Actually the training was good, but anesthesia as I remembered it I liked, but it wasn't enough clinical stuff there for me.

Q. Did you and Dr. Stephen leave in good terms?

A. Fairly good.

Q. Good as far as you were concerned?

A. Yes

Dr. Combs: How about Dr. Stephen?

A. We discussed it several times. He knew I was dissatisfied. I do not suppose there were any hard feelings.

Dr. Thurston: Were they short staffed when you left?

A. I do not think so, about 12, what they actually carry as I understand.

Dr. Combs: At the time you left, was there a conference between you and Dr. Stephen and he knew you would not be back or did you not re-appear?

A. I told the chief resident and the doctor who was on call that I had decided to drop out.

Q. You did not tell Dr. Stephen?

A. No

Dr. Thurston: Who hired you?

A. Dr. Stephen

Q. Ordinarily you would go back to the man that hired you?

A. That is true

Dr. Charles Glen Adkins continued

Dr. Combs: Where were you the last time you were in practice?

A. West Virginia

Dr. Thurston: Have you had any trouble with alcohol or narcotics?

A. No

Q. You have had no serious illness while practice?

A. No

Q. You have never walked out on a patient?

A. That is the first time I have ever done that. I realized it was a mistake, but for some reason I found Dr. Stephen hard to talk to. We had discussed it a couple of times and he would sort of get angry. He was the only person I have ever known I could not talk to. Even though he knew I was dissatisfied he kept trying to get me to stay so I just told the people I knew I decided to go out.

Dr. Combs: Had you made that decision a couple of times before and Dr. Stephen took you back?

A. Yes, he talked me out of it.

Q. Had you failed to report to work when you were supposed to?

A. No, one other time I did not come to work but I told them. There were little problems came up that I found distasteful. I do not like to talk about a person not present. One morning he came in about eight, I had been there since seven. We had been told to use the machines. I set up this machine and he got angry. Actually no one person would keep me from completing a residency. I never ran out on anything before, but I did not like anesthesia regardless who might have been there.

Dr. Thurston : You did not look into Anesthesiology thoroughly enough?

A. I suppose that is the original mistake.

Dr. Anderson: Have you ever been convicted of a crime? A. No

Q. Have you ever had any difficulty with the Narcotic Bureau or a board of licensure? A. No

Q. You say you have had no trouble with narcotics, hypnotics?

A. No sir, I have not.

Q. When do you want to start practice?

A. The first of the year. Mr. Wellons and I are going to build an office. I am going to work in West Virginia until I get set up.

Dr. Combs: All of your work has been in West Virginia? You have not been moving around?

A. No

Dr. Anderson: Were you working under contract?

A. No sir

Dr. Thurston: Did some other doctor take your practice?

A. That is right. I had a small clinic. I will be helping him.

Dr. Anderson: You have your home in Durham?

A. Yes

Q. Your family is living there?

A. Yes and the children are in school.

A. I do not plan to do surgery.

Dr. Thurston : How long will it take you to complete your residency?

Q. Where do you plan to locate in North Carolina?

A. Winston-Salem.

Q. Does that qualify you for surgery boards?

A. If I do a preceptorship. I do not know whether I will be financially able to train that much longer.

Dr. Anderson: Did you have a senior residency?

A. No sir

Q. That would not qualify him.

Dr. Thurston : Have you investigated the staff at Kate B. Reynolds Hospital?

A. I have already filed application.

Q. Will your training qualify you to be on the staff there?

A. Yes sir, it is approved by the American College of Surgeons.

Dr. Anderson: Do you plan to work with anyone?

A. I was going to enter practice and if I could get my finances straightened out, I have a family, I probably would do a preceptorship. Some of the fellows mentioned a physician there by the name of Dr. Odham.

cotic Bureau was advised that Board in session had instructed that recommendation not be made by the Board for reinstatement of the narcotic tax stamp. On September 1st, 1960, in conversation between Dr. Combs and the district office of the Narcotic Bureau, Mr. I. I. Greenfeld stated they would have to issue the narcotic tax stamp and then stated he would try to get a ruling from the Legal Department to the effect if the Board recommended that tax stamp not be issued, they would not issue it. Following this the secretary, after conferring with the president of the Board, requested Dr. Brantley to appear at this meeting.

Dr. Brantley appeared and the Board advised him that due to the fact that he had purchased excessive narcotic drugs in the past, had kept no records, and had admitted administering them to his wife, it had been recommended that his narcotic tax stamp not be reinstated. Dr. Brantley said that he had an associate membership on the staff at the Concord Hospital; that his office was in his home; that he had practiced continuously and was doing urology; that he needed his narcotic tax stamp in his practice and was unable to get any co-operation from his colleagues; that his wife had been off drugs for three years. The Board told Dr. Brantley they felt if he had access to narcotics, it would be a temptation to administer the same to his wife, if she so demanded.
