

North Carolina Medical Board DataLiNC

DataLiNC is a service that allows users to monitor public actions, licensure status and licensure renewal dates of multiple NCMB licensees. This service is automated and will notify subscribers in real-time via email.

Set up is quick and easy

1. Set up user account
2. Provide list of NCMB licensees to monitor
3. Receive real-time updates via email and begin running reports

Benefits:

- Ensures accurate data for credentialing purposes
- Reduces lag in notification when a public record has been posted
- Streamlines licensure renewal reporting
- Eliminates the need to look up NCMB licensee information manually

NCMB provides this service to hospitals, medical practices, and other organizations that need to track the status of licensees, including physicians, residents, physician assistants, anesthesiology assistants, and licensed perfusionists.

Real-time tracking:

1. Changes in licensure status
2. Posting of a public file

Reporting features:

- License type
- License status
- Public file status
- Date range
- Renewal date
- Date of birth
- Licensure date
- License number

Subscription fees

Licensee List	Annual Fee
1-500	\$750
501-1,000	\$1,000
1,001-2,500	\$1,500
2,501-5,000	\$2,000
5,001-7,500	\$2,500
7,501 or more	\$3,000

With DataLiNC, your job just got a whole lot easier!

DataLiNC Key Benefits

- Track NCMB licensees
- Customized reporting for the Joint Commission (TJC)
- Monitor renewal dates
- Unlimited searches
- Automatic email alerts
- Annual fee subscription
- Easy printing options
